## **GFWC Community Service Program Descriptions**

### **Arts and Culture Community Service Program:**

This program encourages members to participate in the study of art and culture, which enriches the human experience. Art education improves problem solving and critical thinking skills, builds focus and perseverance and nurtures creativity, confidence, and collaboration. Cultural awareness promotes effective communication and profoundly increases the ability to appreciate and enjoy a variety of new people and experiences.

### **Civic Engagement and Outreach Community Service Program**

This CSP reminds GFWC members that each of us is a part of a larger society and is responsible for undertaking actions that will create a better quality of life and foster a sense of community – locally, regionally, nationally, and globally. The four “broad strokes” of this effort include: Citizenship; Crime Prevention, Safety and Disaster Preparedness; the Needy, Hungry, and Homeless; and Our Military Personnel and Veterans.

### **Education and Libraries Community Service Program:**

GFWC members promote education in both children and adults. We aim to help others, while we also continue to learn. Projects in the Education CSP are designed to foster schools, as well as other educational institutions and opportunities, and to promote literacy, libraries, and the love of a good book. Through these efforts, we encourage the growth of individuals and communities at home and around the world.

### **Environment Community Service Program:**

This program encourages us to become stewards of the earth by working to preserve the world’s resources, protect wildlife and domesticated animals, live sustainably, beautify our communities, and enjoy nature.

### **Health and Wellness Community Service Program**

The human body, mind and spirit comprise our health and wellness. To improve our well-being, we must address three key components: nutrition, disease prevention and physical and emotional care. This CSP aims to explore the various opportunities for awareness and advancement of each of these vital areas.
